INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
Parklands Lee Community Development District
Bonita Springs, Florida

We have audited the accompanying financial statements of the governmental activities and each major fund of Parklands Lee Community Development District, Bonita Springs, Florida (the "District") as of and for the fiscal year ended September 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2010, and the respective changes in financial position thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Notes 7, 8, 9, 11 and 15 to the basic financial statements, the District's financial conditions are deteriorating. A major landowner within the District did not make a portion of the current and prior year assessments. As a result, the District used part of the debt service reserve funds to make scheduled debt service payments in fiscal year 2009. In addition, the debt service payments due on November 1, 2009 was made, in part, by draws on the Debt Service Reserve Accounts. Additionally, the District did not have sufficient funds to make the May 1, 2010 principal and interest payments or its November 1, 2010 interest payments, and as a result, the payments were not made. The District's failure to make its scheduled debt service payment when it is due is considered an event of default. Furthermore, the District filed a foreclosure claim against the major landowner for delinquent assessment and fees relating to these proceedings were financed using funds from the Series 2005A Debt Service Reserve Account. Therefore, there is a deficit in the Series 2005 Debt Service Reserve Accounts.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 4, 2011, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Kranz & Associates

March 4, 2011

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Parklands Lee Community Development District, Bonita Springs, Florida ("District") provides a narrative overview of the District's financial activities for the fiscal year ended September 30, 2010. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes and supplementary information to the basic financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the fiscal year ended September 30, 2010 resulting in a net asset balance of \$4,091,901.
- The change in the District's total net assets in comparison with the prior fiscal year was (\$468,531), a decrease. The key components of the District's net assets and change in net assets are reflected in the table in the government-wide financial analysis section.
- At September 30, 2010, the District's governmental funds reported combined ending fund balances of \$601,331, a decrease of (\$446,092) in comparison with the prior year. A portion of fund balance is reserved for debt service and the remainder is unreserved fund balance which is available for spending at the District's discretion.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as the introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by special assessment and Developer revenues. The District does not have any business-type activities. The governmental activities of the District include the general government (management) and maintenance functions.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and debt service fund. The general and debt service funds are considered to be major funds.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of an entity's financial position. In the case of the District, assets exceeded liabilities at the close of the most recent fiscal year.

Key components of the District's net assets are reflected in the following table:

	NET ASSETS	
	SEPTEMBER 30,	
	2010	2009
Assets, excluding capital assets	\$ 1,489,620	\$ 1,553,658
Capital assets, net of depreciation	13,676,667	14,019,667
Total assets	<u>15,166,287</u>	<u>15,573,325</u>
Liabilities, excluding long-term liabilities	543,380	263,664
Long-term liabilities	10,531,006	10,749,229
Total liabilities	<u>11,074,386</u>	<u>11,012,893</u>
Net Assets		
Invested in capital assets, net of related debt	3,517,376	3,657,172
Restricted for debt service	423,995	781,776
Unrestricted	150,530	121,484
Total net assets	<u>\$ 4,091,901</u>	<u>\$ 4,560,432</u>

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The District's net assets reflects its investment in capital assets (e.g. land, land improvements, and infrastructure) less any related debt used to acquire those assets that is still outstanding. These assets are used to provide services to residents; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net assets represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets may be used to meet the District's other obligations.

The District's net assets decreased during the most recent fiscal year. The decrease is primarily the result of the non-payment of a significant portion of the fiscal year 2009 and 2010 assessments which resulted in the cost of operations, assessment collection remedial costs, and depreciation expense exceeding ongoing program revenues.

Key elements of the change in net assets are reflected in the following table:

CHANGES IN NET ASSETS		
FOR THE FISCAL YEAR ENDED SEPTEMBER 30,		
	2010	2009
Revenues:		
Program revenues		
Charges for services	\$ 669,695	\$ 672,639
Operating grants and contributions	5,855	497,339
General revenues		
Unrestricted investment earnings	492	786
Total revenues	<u>676,042</u>	<u>1,170,764</u>
Expenses:		
General government	164,258	127,563
Maintenance and operations	376,678	384,176
Interest	603,637	617,367
Total expenses	<u>1,144,573</u>	<u>1,129,106</u>
Change in net assets	(468,531)	41,658
Net assets beginning	4,560,432	4,518,774
Net assets ending	<u>\$ 4,091,901</u>	<u>\$ 4,560,432</u>

As noted above and in the statement of activities, the cost of all governmental activities during the fiscal year ended September 30, 2010 was \$1,144,573. The majority of the costs of the District's activities were paid by program revenues. Program revenues, comprised primarily of assessments, decreased during the fiscal year as a result of a decrease in prepayment revenue and non-payment of certain landowner assessments. The non-payment of a significant portion of the fiscal year 2010 assessments also resulted in an increase in current year expenses due to an increase in professional fees incurred as a result of the delinquent assessments.

GENERAL BUDGETING HIGHLIGHTS

An operating budget was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The legal level of budgetary control, the level at which expenditures may not exceed budget, is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. The general fund budget for the fiscal year ended September 30, 2010 was amended to increase revenues by \$3,370, increase appropriations by \$47,185, and increase appropriations by \$43,815. The increase in revenues is primarily the result of greater than anticipated assessments being collected due to fewer people taking advantage of the discount for early payment than expected and the increase in appropriations is primarily due to the additional costs incurred related to the foreclosure proceedings.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At September 30, 2010, the District had \$15,492,000 invested in land and land improvements and infrastructure improvements. In the government-wide financial statements, depreciation of \$1,815,333 has been taken, which resulted in a net book value of \$13,676,667. More detailed information about the District's capital assets is presented in the notes of the financial statements.

Capital Debt

At September 30, 2010, the District had \$10,575,000 in Bonds outstanding for its governmental activities. No new debt was issued during the year, and the District had no immediate need to issue additional debt. More detailed information about the District's capital debt is presented in the notes of the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND OTHER EVENTS

As discussed in Notes 7, 8, 9, 11 and 15 to the basic financial statements, the District's financial conditions are deteriorating. A major landowner within the District did not make a portion of the current and prior year assessments. As a result, the District used part of the debt service reserve funds to make scheduled debt service in fiscal year 2009. In addition, the debt service payments due on November 1, 2009 was made, in part, by draws on the Debt Service Reserve Accounts. Additionally, the District did not have sufficient funds to make the May 1, 2010 principal and interest payments or its November 1, 2010 interest payments, and as a result, the payments were not made. The District's failure to make its scheduled debt service payment when it is due is considered an event of default. Furthermore, the District filed a foreclosure claim against the major landowner for delinquent assessment and fees relating to these proceedings were financed using funds from the Series 2005A Debt Service Reserve Account. Therefore, there is a deficit in the Series 2005 Debt Service Reserve Accounts.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, land owners, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages and the stewardship of the facilities it maintains. If you have questions about this report or need additional financial information, contact the Parklands Lee Community Development District's Finance Department at 6131 Lyons Road, Suite 100, Coconut Creek, Florida, 33073.

**PARKLANDS LEE COMMUNITY DEVELOPMENT DISTRICT
BONITA SPRINGS, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 – NATURE OF ORGANIZATION AND REPORTING ENTITY

Parklands Lee Community Development District (the "District"), was created by City of Bonita Springs Ordinance 04-06 enacted on May 6, 2004 pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by the Board of Supervisors ("Board"), which is composed of five members. The Supervisors are elected by landowners within the District. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes. During the fiscal year ended September 30, 2009, the Developer defaulted on the mortgage of certain properties within the District and RC Properties IX, LLC became the successor owner of nine single family lots and one commercial parcel within the District (Landowner).

The Board has the responsibility for:

1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing improvements.

The financial statements were prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement 14, and Statement 39, an amendment of GASB Statement 14. Under the provisions of those standards, the financial reporting entity consists of the primary government, organizations for which the District Board of Supervisors is considered to be financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that, if excluded, the financial statements of the District would be considered incomplete or misleading. There are no entities considered to be component units of the District; therefore, the financial statements include only the operations of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements.

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment (Operating-type special assessments for maintenance and debt service are treated as charges for services.) and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not included among program revenues are reported instead as *general revenues*.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assessments

Assessments are non-ad valorem assessments on all platted lots within the District. Assessments are levied each November 1 on property of record as of the previous January. The fiscal year for which annual assessments are levied begins on October 1 with discounts available for payments through February 28 and become delinquent on April 1. For debt service assessments, amounts collected as advance payments are used to prepay a portion of the Bonds outstanding. Otherwise, assessments are collected annually to provide funds for the debt service on the portion of the Bonds which are not paid with prepaid assessments. The District's annual assessments are billed and collected by the County Tax Assessor/Collector. The amounts remitted to the District are net of applicable discounts or fees and include interest on monies held from the day of collection to the day of distribution. In addition, any excess fees computed by the Tax Collector are remitted to the District.

Assessments and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. The portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

General Fund

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first for qualifying expenditures, then unrestricted resources as they are needed.

Assets, Liabilities and Net Assets or Equity

Restricted Assets

These assets represent cash and investments set aside pursuant to Bond covenants or other contractual restrictions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Assets or Equity (Continued)

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and demand deposits.

The District has elected to proceed under the Alternative Investment Guidelines as set forth in Section 218.415 (17) Florida Statutes. The District may invest any surplus public funds in the following:

- a) The Local Government Surplus Trust Funds, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act;
- b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- c) Interest bearing time deposits or savings accounts in qualified public depositories;
- d) Direct obligations of the U.S. Treasury.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due. In addition, surplus funds may be deposited into certificates of deposit which are insured and any unspent Bond proceeds are required to be held in investments as specified in the Bond Indenture.

The District records all interest revenue related to investment activities in the respective funds and reports investments at fair value.

Inventories and Prepaid Items

Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the government activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Infrastructure	30

In the governmental fund financial statements, amounts incurred for the acquisition of capital assets are reported as fund expenditures. Depreciation expense is not reported in the governmental fund financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Assets or Equity (Continued)

Deferred Charges

In a prior year, in connection with the issuance of certain debt, the District incurred costs totaling \$450,564. In the government-wide financial statements, that amount has been capitalized and amortized over the estimated life of the Bonds. At September 30, 2010, the District reported accumulated amortization of \$78,849. In addition, the original issue discount on the debt in the amount of \$53,324 is being amortized over the estimated life of the Bonds. Accumulated amortization was \$9,330 at September 30, 2010.

Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized ratably over the life of the Bonds. Bonds payable are reported net of applicable premiums or discounts.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity/Net Assets

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Net assets in the government-wide financial statements are categorized as invested in capital assets, net of related debt, restricted or unrestricted. Invested in capital assets, net of related debt represents net assets related to infrastructure and property, plant and equipment, net of any related debt. Restricted net assets represent the assets restricted by the District's Bond covenants or other contractual restrictions.

Other Disclosures

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3 – BUDGETARY INFORMATION

Budgetary Information

The District is required to establish a budgetary system and an approved Annual Budget. Annual Budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. All annual appropriations lapse at fiscal year end.

NOTE 3 – BUDGETARY INFORMATION (Continued)

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- a) Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- b) Public hearings are conducted to obtain public comments.
- c) Prior to October 1, the budget is legally adopted by the District Board.
- d) All budget changes must be approved by the District Board.
- e) The budgets are adopted on a basis consistent with generally accepted accounting principles.
- f) Unused appropriation for annually budgeted funds lapse at the end of the year.

NOTE 4 – DEPOSITS AND INVESTMENTS

Deposits

The District's cash balances were entirely covered by federal depository insurance or by a collateral pool pledged to the State Treasurer. Florida Statutes Chapter 280, "Florida Security for Public Deposits Act", requires all qualified depositories to deposit with the Treasurer or another banking institution eligible collateral equal to various percentages of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held. The percentage of eligible collateral (generally, U.S. Governmental and agency securities, state or local government debt, or corporate bonds) to public deposits is dependent upon the depository's financial history and its compliance with Chapter 280. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses.

Investments

The District's investments were held as follows at September 30, 2010:

	Fair Value	Credit Risk	Maturities
Money Market Mutual Funds - First American Government Obligation Fund	\$ 853,411	S&P AAAm	Weighted average of the fund portfolio: 45 days
Money Market Mutual Funds - Treasury Obligations Fund SS	42,512	S&P AAAm	Weighted average of the fund portfolio: 21 days
Total Investments	<u>\$ 895,923</u>		

Custodial risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The District has no formal policy for custodial risk. The money market mutual funds are not evidenced by securities that exist in physical or book entry form.

Credit risk – For investments, credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Investment ratings by investment type are included in the preceding summary of investments.

Concentration risk – The District places no limit on the amount the District may invest in any one issuer.

Interest rate risk – The District does not have a formal policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

However, the Bond Indenture limits the type of investments held using unspent proceeds.

NOTE 5 – INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund transfers for the fiscal year ended September 30, 2010 were as follows:

Fund	Transfer In	Transfer Out
General	\$ 65,960	\$ -
Debt service	-	65,960
Total	\$ 65,960	\$ 65,960

As noted in Notes 8, 9, and 11, there was significant delinquent assessments for fiscal years 2009 and 2010 which caused defaults on certain Bonds payments. The Bondholders authorized the use of Bond funds to defer the costs of professional and other fees relating to foreclosure and other collection costs. As such, these transfers were made to pay such costs.

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended September 30, 2010 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
<u>Governmental activities</u>				
Capital assets, not being depreciated				
Land and land improvements	\$ 5,202,000	\$ -	\$ -	\$ 5,202,000
Total capital assets, not being depreciated	5,202,000	-	-	5,202,000
Capital assets, being depreciated				
Infrastructure - storm water management	8,439,281		-	8,439,281
Infrastructure - roadways	1,850,719		-	1,850,719
Total capital assets, being depreciated	10,290,000	-	-	10,290,000
Less accumulated depreciation for:				
Infrastructure - storm water management	1,207,525	281,309	-	1,488,834
Infrastructure - roadways	264,808	61,691	-	326,499
Total accumulated depreciation	1,472,333	343,000	-	1,815,333
Total capital assets, being depreciated, net	8,817,667	(343,000)	-	8,474,667
Governmental activities capital assets, net	\$ 14,019,667	\$ (343,000)	\$ -	\$ 13,676,667

Depreciation expense was charged to maintenance and operations function.

NOTE 7 – LONG-TERM LIABILITIES

On December 15, 2004 the District issued \$20,250,000 of Special Assessment Bonds consisting of \$6,900,000 Series 2005A, due May 1, 2035 with a fixed interest of 5.8% and \$13,350,000 Series 2005B, due May 1, 2011, with a fixed interest rate of 5.125%. The Bonds were issued to provide funds to finance the cost of acquisition, construction, installation and equipping of the 2005 project, pay certain costs associated with the issuance of the 2005 Bonds, pay a portion of the interest to become due on the 2005 Bonds, and fund the 2005 Reserve account. Interest is to be paid semiannually on each May 1 and November 1. Principal on the 2005A Bonds is to be paid serially commencing May 1, 2006 through May 1, 2035. Principal on the 2005B Bonds is payable in one lump sum on May 1, 2011.

The Series 2005A Bonds are subject to redemption at the option of the District prior to their maturity. The Series 2005B Bonds are not subject to optional redemption. The Bonds are subject to extraordinary mandatory redemption prior to their selected maturity in the manner determined by the Bond Registrar if certain events occurred as outlined in the Bond Indenture.

This occurred during the current fiscal year as the District collected assessments from lot closings and prepaid \$220,000 of the Series 2004B Bonds.

NOTE 7 – LONG-TERM LIABILITIES (Continued)

The Bond Indenture requires that the District maintain adequate funds in the reserve accounts to meet the debt service reserve requirements as defined in the Indenture. In addition, the Bond Indenture has certain restrictions and requirements relating principally to the use of proceeds to pay for the infrastructure improvements and the procedures to be followed by the District on assessments to property owners. The District agrees to levy special assessments in annual amounts adequate to provide payment of debt service and to meet the reserve requirements.

As discussed in Note 8, the major Landowner failed to make payment on the special assessments which ultimately secure the Bonds. As a result, during the 2009 fiscal year, unscheduled draws on the 2005A and 2005B Debt Service Reserves of approximately \$55,000 and \$100,000, respectively, were used to make certain scheduled debt service payments. In addition, the debt service payments due on the Series 2005A and Series 2005B on November 1, 2009 were made, in part, by draws on the Debt Service Reserve Accounts.

As a result of the continued non-payment of assessments, in November 2009, the District filed foreclosure proceedings against the major Landowner. On approval of the Bondholders, \$100,000 was transferred from the 2005A Reserve Account to a remedial expense account to finance expenditures related the foreclosure proceedings. As a result of these payments, there is a deficit of approximately \$158,403 in the Series 2005A and approximately \$104,704 in the Series 2005B Debt Service Reserve Accounts as of September 30, 2010. The balances in the Debt Service Reserve Accounts have not been replenished. Furthermore, the Trustee did not receive sufficient payments from the District for payment of the principal and interest due on the Bonds and payable May 1, 2010, and the debt service payment was not made. The amount has been accrued on the fund financial statements as due to Bondholders. The failure by the District to pay its debt service is considered an event of default. See Note 15 for additional information subsequent to fiscal year end.

Changes in long-term liability activity for the fiscal year ended September 30, 2010 were as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<u>Governmental activities</u>					
Bonds payable:					
Series 2005A	\$ 6,485,000	\$ -		\$ 6,485,000	\$ 225,000
Series 2005B	4,310,000	-	220,000	4,090,000	4,090,000
Less: Original issue discount	(45,771)	-	(1,777)	(43,994)	-
Total	\$ 10,749,229	\$ -	\$ 218,223	\$ 10,531,006	\$ 4,315,000

At September 30, 2010, the scheduled debt service requirements on the long-term debt were as follows:

Year ending September 30:	Governmental Activities		
	Principal	Interest	Total
2011	\$ 4,315,000	\$ 872,234	\$ 5,187,234
2012	125,000	363,080	488,080
2013	130,000	355,830	485,830
2014	140,000	348,290	488,290
2015	145,000	340,170	485,170
2016-2020	875,000	1,563,100	2,438,100
2021-2025	1,180,000	1,276,290	2,456,290
2026-2030	1,565,000	891,460	2,456,460
2031-2034	2,100,000	379,900	2,479,900
Total	\$ 10,575,000	\$ 6,390,354	\$ 16,965,354

NOTE 8 – DEVELOPER AND LANDOWNER TRANSACTIONS

During the fiscal year ended September 30, 2009, the Developer defaulted on the mortgage of certain properties within the District and RC Properties IX, LLC (“Landowner”) became the successor owner of nine single family lots and one commercial parcel within the District. Assessment revenues in the general and debt service funds include the assessments levied on those lots owned by the Landowner.

RC Properties was direct billed for certain debt service assessments. RC Properties did not pay the debt service assessment of \$104,595 levied on the commercial parcel for the 2009 fiscal year. Assessments receivable and a deferred liability of \$104,595 are recorded in the debt service fund at fiscal year end. As a result, in November 2009, the District filed foreclosure proceedings on the commercial property – see Note 11. However, additional amounts due for fiscal year 2010 of approximately \$220,888 for the property subject to foreclosure proceedings have not been collected. As collectability was deemed both uncertain and unlikely, this revenue has not been recognized in the financial statements.

NOTE 9 – ASSESSMENTS

A significant portion of the assessments for the fiscal year ended September 30, 2010 were delinquent. However, all tax certificates were sold and the District collected 100% of the assessments that utilized the uniform method of collection for the fiscal year ended September 30, 2010.

However, the Landowner did not pay its direct assessments for the fiscal year 2010 of approximately \$220,888. In addition, \$104,595 from the prior fiscal year remains delinquent.

NOTE 10 – CONCENTRATION

The District’s activity is dependent upon the continued involvement of the Landowner, the loss of which could have a material adverse effect on the District’s operations.

NOTE 11 – FORECLOSURE

In accordance with the Series 2005 Bond Indenture, on November 10, 2009, the District has filed a lawsuit seeking to foreclose on certain land in the District owned by the Landowner for which there are delinquent assessments. The defendant has filed an answer to the lawsuit but did not assert any affirmative defense. On April 26, 2010, the District filed an amended complaint adding Palmira Golf and Country Club Master Homeowners Association, Inc. as party defendant. The Landowner filed an answer to the amended complaint raising one affirmative defense. The District filed a reply and avoidances to RC Properties’ answer. On June 9, 2010, the clerk entered a default against Palmira Golf and Country Club Master Homeowners Association, Inc. On September 3, 2010, the District filed a motion for summary judgment and memorandum of law in support thereof. Subsequent hearings have been held and most recently a motion to postpone final judgment hearing until April 4, 2011 was filed by the District and granted by the Court.

NOTE 12 – MANAGEMENT COMPANY

The District has contracted with Wrathell, Hunt & Associates to perform management advisory services, which include financial and accounting services. Certain employees of the management company also serve as officers of the District. Under the agreement, the District compensates the management company for management, accounting, financial reporting, computer and other administrative costs.

NOTE 13 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained commercial insurance from independent third parties to mitigate the costs of these risks; coverage may not extend to all situations. Settled claims from these risks have not exceeded commercial insurance coverage over the past three years.

NOTE 14 – SHARED MAINTENANCE COSTS WITH PARKLANDS WEST

The District has an agreement with Parklands West Community Development District (“Parklands West”) to share certain water management maintenance costs. The shared costs are allocated on a percentage basis with 50.5% allocated to Parklands Lee and 49.5% allocated to Parklands West. The costs are paid by each District for its proportionate share. The District’s portion of these shared costs for the fiscal year ended September 30, 2010 was approximately \$34,000.

NOTE 15 – SUBSEQUENT EVENTS

Scheduled Debt Service Payments

On November 1, 2010, interest payments were due on the Series 2005A and 2005B Bonds. However, shortfalls in the collection of special assessments caused there to be insufficient amounts available to fully fund the Series 2005A and 2005B interest payments. As a result, the November 1, 2010 interest payments were not made. The Trustee is in consultation with the Bondholders in assessing when or if a payment may be made from funds held by the Trustee under the Indenture.

**PARKLANDS LEE COMMUNITY DEVELOPMENT DISTRICT
BONITA SPRINGS, FLORIDA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

The District is required to establish a budgetary system and an approved Annual Budget for the general fund. The District's budgeting process is based on estimates of cash receipts and cash expenditures which are approved by the Board. The budget approximates a basis consistent with accounting principles generally accepted in the United States of America (generally accepted accounting principles).

The legal level of budgetary control, the level at which expenditures may not exceed budget is in the aggregate. Any budget amendments that increase the aggregate budgeted appropriations must be approved by the Board of Supervisors. The general fund budget for the fiscal year ended September 30, 2010 was amended to increase revenues by \$3,370, increase appropriations by \$47,185, and increase appropriations by \$43,815. The increase in revenues is primarily the result of greater than anticipated assessments being collected due to fewer people taking advantage of the discount for early payment than expected and the increase in appropriations is primarily due to the additional costs incurred related to the foreclosure proceedings.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
Parklands Lee Community Development District
Bonita Springs, Florida

We have audited the financial statements of the governmental activities and each major fund of Parklands Lee Community Development District, Bonita Springs, Florida ("District") as of and for the fiscal year ended September 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 4, 2011, which includes an emphasis of matter paragraph. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in a separate letter dated March 4, 2011.

We noted another matter involving the internal control over financial reporting and compliance that we have reported to management of the District in a separate letter dated March 4, 2011.

This report is intended for the information of the management, Board of Supervisors of Parklands Lee Community Development District, Bonita Springs, Florida and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.

Shan & Associates

March 4, 2011

**MANAGEMENT LETTER PURSUANT TO THE RULES OF
THE AUDITOR GENERAL FOR THE STATE OF FLORIDA**

To the Board of Supervisors
Parklands Lee Community Development District
Bonita Springs, Florida

We have audited the accompanying basic financial statements of Parklands Lee Community Development District ("District") as of and for the fiscal year ended September 30, 2010, and have issued our report thereon dated March 4, 2011, which includes an emphasis of matter paragraph.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United State. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

In addition, we have issued our Report on Internal Control over Financial Reporting and Compliance and Other Matters dated March 4, 2011. Disclosures in that report should be considered in conjunction with this management letter.

The purpose of this letter is to comment on those matters required by Chapter 10.550 of the Rules of the Auditor General for the State of Florida. Accordingly, in connection with our audit of the financial statements of the District, as described in the first paragraph, we report the following:

- I. Current year findings and recommendations.**
- II. Status of prior year findings and recommendations.**
- III. Compliance with the Provisions of the Auditor General of the State of Florida.**

This report is intended for the information of the management, Board of Supervisors of Parklands Lee Community Development District, Bonita Springs, Florida and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank Parklands Lee Community Development District, Bonita Springs, Florida and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements, and the courtesies extended to us.

Grau & Associates

March 4, 2011

REPORT TO MANAGEMENT

I. CURRENT YEAR FINDINGS AND RECOMMENDATIONS

2010-01 Financial Condition Assessment:

Observation: The District's financial conditions are deteriorating. A major landowner within the District did not make a portion of their current and prior year assessments. As a result, certain fiscal year 2009 debt service payments on the Series 2005 Bonds were made, in part, by draws on the Debt Service Reserve Accounts. In addition, the Series 2005 interest payments due on November 1, 2009 was made, in part, by draws on the Debt Service Reserve Accounts. Also, the principal payment and interest payments due on May 1, 2010 were not made. The failure by the District to pay its debt service is considered an event of default. As a result of the continued non-payment of assessments, in November 2009, the District filed foreclosure proceedings against the major landowner. On approval of the Bondholders, \$100,000 was transferred from the 2005A Reserve Account to a remedial expense account to finance expenditures related to the foreclosure proceedings. As a result of these payments, there is a deficit of approximately \$158,403 in the Series 2005A and approximately \$104,704 in the Series 2005B Debt Service Reserve Accounts as of September 30, 2010. The balances in the Debt Service Reserve Accounts have not been replenished. Subsequent to fiscal year end, the Trustee did not receive sufficient payments from the District for payment of the interest due on the Bonds payable November 1, 2010, and the debt service payment was not made.

Recommendation: The District should take steps to alleviate the deteriorating financial condition steps and to replenish the Series 2005A and Series 2005B Debt Service Reserve Account in such an amount that will eliminate the deficiency.

Management Response: The District, Developer, Bondholders and Trustee are all working together to resolve the items noted above.

II. PRIOR YEAR FINDINGS AND RECOMMENDATIONS

2009-01: Debt Service Reserve

Current Status: See finding no. 2010-01 above.

III. COMPLIANCE WITH THE PROVISIONS OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Unless otherwise required to be reported in the auditor's report on compliance and internal controls, the management letter shall include, but not be limited to the following:

1. A statement as to whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

There were no significant findings and recommendations made in the preceding annual financial audit report for the fiscal year ended September 30, 2009, except as noted above.

2. A statement as to whether or not the local governmental entity complied with Section 218.415, Florida Statutes, regarding the investment of public funds.

The District complied with Section 218.415, Florida Statutes, regarding the investment of public funds.

REPORT TO MANAGEMENT (Continued)

3. Any recommendations to improve the local governmental entity's financial management.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported for the fiscal year ended September 30, 2010, except as noted above.

4. Violations of provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but more than inconsequential.

There were no such matters discovered by, or that came to the attention of, the auditor, to be reported, for the fiscal year ended September 30, 2010, except as noted above.

5. For matters that have an inconsequential effect on the financial statements, considering both quantitative and qualitative factors, the following may be reported based on professional judgment:

- a. Violations of provisions of contracts or grant agreements, fraud, illegal acts, or abuse.

- b. Deficiencies in internal control that are not significant deficiencies.

There were no such matters discovered by, or that came to the attention of, the auditor, that, in our judgment, are required to be reported, for the fiscal year ended September 30, 2010, except as noted above.

6. The name or official title and legal authority of the District are disclosed in the notes to the financial statements.
7. The financial report filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes agrees with the September 30, 2010 financial audit report.
8. In connection with our audit, we determined that the District has met one or more of the financial emergency conditions described in Section 218.503 (1), Florida Statutes. We applied financial condition assessment procedures pursuant to Rule 10.556(7) and determined that a deteriorating financial condition was noted. See Findings section above for additional information. It is management's responsibility to monitor financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.
